

TSYS Acquiring Solutions®

# KioskPASS™

## The Next Generation in Financial Self-Service Solutions

TSYS is committed to delivering innovative payment applications to advance its mission to move any payment form, anywhere, over any network, through any payment device.

### All-in-One Financial Self-Services

The KioskPASS self-service solution from TSYS offers one of the most comprehensive portfolios of financial services in the industry. This multi-function solution combines superior technology and flexible service offerings, with TSYS' elite transaction processing and complete 24/7 support.

KioskPASS is one in a series of payment applications offered by TSYS as part of its **n>genuity in action: n>gen** initiative for innovation. It is made possible by leveraging the power of Infonox technologies.

You'll gain a complete financial services kiosk solution that makes it possible to generate revenue immediately.

### Create Incremental Revenue Opportunities

KioskPASS enables retailers to customize offerings for their business by choosing from several financial services, including ATM, cash advance, bill payment, check cashing for paychecks or government checks, remote deposits, money transfers, money orders, enrollment services, gift, loyalty or stored value

cards and prepaid top-up for mobile phones. Services can be mixed and matched to the demographic customer base for each location.

### Deliver More Convenience and Retain Customers

In a marketplace where automated transactions and services have become commonplace, many consumers enjoy the privacy of using a kiosk instead of person-to-person transactions. KioskPASS employs a seamless, easy-to-use, touch-screen interface that encourages an initial use and repeat customers. The kiosks are readily available 24/7, offering flexibility beyond normal business hours so customers can more conveniently conduct financial activities. With KioskPASS, transactions are completed faster and long lines are eliminated. The underbanked or unbanked may also reduce fees paid to check cashing stores and other alternative service providers for check cashing, bill payment and money transfers.

Multi-function, self-service financial kiosk

Check cashing is just one of the many self-services available

**Increase Revenue, Lower Costs**

New and expanded financial service offerings delivered through self-service kiosks enable retailers to increase revenue opportunities without increasing staff or overhead costs. According to the National Association of Convenience Stores (NACS), leveraging kiosks can generate up to three times more than the typical \$400 in sales-per-square-foot generated annually.

*“Global markets for financial kiosks and enhanced ATMs will grow at a compound annual rate of 9 percent to include more than 186,000 financial kiosks by 2013 with more than half of them installed in the United States.”*

*(Source: NextGen Research, Financial Kiosks: No Bank, No Card, No Envelope Required, January 2009)*

**Easy and Cost-Effective to Deploy**

KioskPASS removes obstacles with an all-in-one solution that bundles hardware, software, transaction processing and support – as well as all of the service providers required to offer a complete turnkey

financial services solution. Retailers can be assured that their kiosks are serviced and supported appropriately because all of the components are assembled and available through TSYS.

**Choose From Services Your Customers Value**

- ATM
- Bill Payment
- Cash Advance
- Check Cashing
- Gift, Loyalty or Stored Value Dispensing
- Money Orders
- Money Transfers
- Prepaid Top-up
- Remote Deposit Capture

**Bringing it all Together for You**

TSYS can assist you in implementing a successful financial self-service program for your retail business. Our program is flexible and can include TSYS-owned and -deployed kiosks at your location as part of a partnership business model. Our unique solution combines robust hardware, on-demand software applications, transaction processing, 24/7 monitoring and support, as well as all of the service providers necessary to replenish, repair and manage equipment in the field as part of an all-in-one solution. With KioskPASS, you can realize instant incremental revenue without having to manage individual contracts and service providers by leveraging the service and support of one trusted vendor – TSYS.
